REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-9 are allowed over the prior art of record. Current invention claims an electromechanical program delay timer. Pushing pawl activated by an eccentric shaft driving the driven ratchet controls lower time speed of the timer when the driving means is met by a missing gear portion of the main driven gear. The claimed "pushing pawl structure" in combination with the claimed limitations of claim 1 are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
